Chords:
(T=10th fret)

D- T90xxx
A- 540xxx
G- 320003

Now it's essentially just these 3 chords over and over again... normally adopting this strum pattern... all quick downstrums by the way and notice the hammering on to create a sus4 effect... very important that you nail it!

```
  D                A                G                D
E-------------------------------------------------------------------
B-------------------------------------------------------------------
G-------------------------------------------------------------------
D-0000000000000000000000000000000000000000000000000-00000000000000-
A-9999999999999T904444444444444540222222222222222229-9999999999T999-
E-TTTTTTTTTTTTTTTT555555555555555533333333333333333T-TTTTTTTTTTTTTT-
```

Occasionally Tom changes the strumming, plays more notes of the chords 'n' stuff but listen to the record for that banter...

VERSE

D A G D
Light me a smoke, I'll tell you a story of how the West was won

A G D
Flew over diamonds, east river shining, a city sinking in the mud

A G D
And in a second, a life-long second, I knew what we'd become

CHORUS

A G D
We use up people, use up time, use up places say goodbye searching for the crowded hour

A G D
Now there's a buzzing in the wires, look for lightening in your eyes and I see it there

...and it's just that. For 6 minutes. Any banter (although please none of the historical civilizations sort...) to ihateibiza@hotmail.com
