

Language of Fools

See more at www.tommcrae.com

By Tom McRae

Cadd9: x32030
Fadd9: xx3230
A5: x022xx
B5: x202xx \ Not their
C5: x302xx / actual names
Am: x02210
G/B: x20030
C: x32010

Sorry, but this is not 100% right, but I think the base notes are OK so this should sound near enough.

INTRO:

Cadd9 Fadd9 x4

VERSE:

A5	B5	C5	B5	A5	B5	C5	B5	
E-----								
B-----								
G-----2-----2-----2-----2-----2-----2-----2-----2-----2-----2-----								(Please note that Tom
D---2-----0-----0-----0-----2-----0-----0-----0-----0-----								sings out of sync with
A-0-----2-----3-----2-----0-----2-----3-----2-----								the notes)
E-----								

Cannot use this language of fools to communicate with you
The things that you say mark the time of the day are calculated to bemuse

Am G/B C G/B

Hide me

Am G/B C

Hide me

CHORUS:

	Cadd9		Fadd9					
Won't	you	hide	me,	won't	you	hold	my	life
Cadd9		Fadd9						
Let	me	have	this	time				
	Cadd9		Fadd9					
And	I	lie	here	while	I	close	my	eyes
Cadd9		Fadd9						
Hold	me	through	this	night				

And the next verse and choral refrain is exactly the goddamn same, man.

For the outro out of the 2nd chorus, just play the intro a fuck load of times and wail over it like Tom does
