Right this is a bit tricky, due to the lack of guitars on the damn song in the first place, but hopefully this can give a guide. I mean, there is a second guitar playing, probably with a Capo on the 5th fret, but I can't just tab that because it sounds shit by itself. So here's hopefully a version you can play on your own.

Chords:

Am- x02210
Fmaj7- 133210
G- 320033
F- 133211
C- x32010
Dm- xx0231

Verse:

N.C.

Ice has formed, and there's snow between the tracks

N.C.

And I have seen the surface tear and, I can't look back

Am Fmaj7 G Am Fmaj7 G
And cool low sun has blinded you for days

Am Fmaj7 G Am
From horizon to horizon can I dream this all away?

F C Dm F C Dm F C Dm
But over the water, over the water, over the sea

Am Fmaj7 G Am Fmaj7 G
There's you shining brightly in a sea of fools

Am Fmaj7 G
Oh I can sing you out of this can shake your Mermaid Blues

Am Fmaj7 G Am Fmaj7 G
And come with me for alone I fear the tide

Am Fmaj7 G Am
It's calling me and dragging me and I think it's time

F C Dm F C Dm F C Dm
But over the water, over the water, over the sea

and that's pretty much it! I think..... not perfect
