

# The Girl Who Falls Downstairs

By Tom McRae - "All Maps Welcome"

[www.tommcrae.com](http://www.tommcrae.com)

Chords:

E - 022100

Asus2 - x02200

Tom's been listening to Coteau Twins, it seems... can't be arsed to tab the second guitar so it's just this ridiculously easy stuff... Just watch the timing...

E Asus2 x 2

VERSE:

E Asus2 E  
She says I know your face but something's strange in your eyes

E Asus2 E  
Your voice I know so well, your words I don't recognise

E Asus2 E Asus2  
And darkness creeps, borne on cold winds, blows my footprints away

CHORUS:

E  
And I see myself turn into something else

Asus2 E  
Turn into someone else for a while

E  
And I know I'm right running into this night

Asus2 E  
Running another dream into the ground

And I can't hear a whole lot else going on so just repeat the whole gubbins with those two chords... over and over and over and over again...
