Intro: D F#m G D (x2)

* Use Dsus2 & Dsus4 to alter the strumming of the D-chord throughout the song (listen to the song to get the strumming pattern).

Verse 1:

D
So baby there you stand

D
the bottle in your hand

G
shouting to the night

D
while the city sleeps

Verse 2:

Caught in the light of a car
or subway station sparks
I see your face again
guess it's time to leave

Pre-chorus:

A G
And I watch you fall from a great height

A G
and you watch me fail night after night

Chorus:

G D F#m G D
And still the sound, still the sound of the city tonight

F#m G D
keeps my dreams and my demons alive

G D (Dsus2, D, Dsus4)
Baby I'm still alive

Verse 3:

I hear the city breathe
I dream the city's dreams
and she's still in my arms
for another year

Verse 4:

So bring your broken hearts
call me the King of Cards
I'll make them disappear
with a sleight of hand

Pre-chorus:

And I watch you fall from a great height
and you watch me fail night after night
And still the sound, still the sound of the city tonight
keeps my dreams and my demons alive
Baby I'm still alive

Chorus:

D F#m
Still you don't come, you won't come

G
but the fever has broken

D F#m G
and the daylight is blinding your eyes

D F#m
And still you don't come, you won't come

G
but the city she's not done

D F#m G
she's calling, she's calling your name
